

TEMA Holy Grail System

Features

The TEMA Holy Grail system is based on the FirstWave TEMA study and other FirstWave indicators into one single system that displays arrows in the upper chart. Based on various patterns and indicators, arrows will be plotted on the candle telling you when to buy, sell, or stop out of a position. This is incredibly helpful for new traders that want to get up and running quickly. We have done the work for you by combining many studies into one.

The system gives you a reason to enter a trade and tells you the Stop Price on the chart if it doesn't work. You have what you need to put on a trade, the entry, and the stop price. With one system, you know exactly how to manage the trade at all times.

Features

- **Purple Arrows** – Up Arrows are buy arrows, Down arrows are sell arrows
- **Yellow Arrows** – Stop out Arrows
- **Stop Price** – Located in the left top-corner, the stop price will always show what the stop price should be at the current time. Updates real-time. If red, you should be short. If green, you should be long.
- **Multi Time Frames** – Supported on tick, minute, hourly, daily, weekly, monthly, yearly charts.

Customization

- **Arrows** – Turn on/off Arrows, change size
- **Stop Out Price Indicator** – Turn on/off
- **Plot ATR** – Turn on/off dots
- **Play Trade Sound Alerts** – Turn on/off

Price

The TEMA Holy Grail System is priced at \$149.95
